SoftwareAG Accessibility Conformance Report

WCAG Edition

(Based on VPAT® Version 2.4)

Product Name / Version: Centrasite 10.11

Report Date: February 2, 2022

Product Description: CentraSite provides a design-time and governance asset repository for API management. The Centrasite asset repository can be accessed by users through multiple interfaces to search for assets, publish assets, generate reports, and perform administrative functions. These user interfaces include a browser-based user interface, an Eclipse user interface, a command-line interface, and web service interface (invokable via command-line, browser, Eclipse or programmatically). In addition, Centrasite provides programmatic access via a Java API.

Contact Information: accessibility@softwareaggov.com

Notes: The command-line interface is fully accessible

Evaluation Methods Used: The following tools were used: WAT, WAF, aXe, ANDI, code inspection, and screen readers (JAWS and NVDA).

"Voluntary Product Accessibility Template" and "VPAT" are registered service marks of the Information Technology Industry Council (ITI)

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes) Level AAA (No)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	Yes

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can be used only in WCAG 2.0 Level AAA.

WCAG 2.1 Report

Note: When reporting on conformance with the WCAG 2.1 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the WCAG 2.1 Conformance Requirements.

Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A)	Partially Supports	Some images in Centrasite Business UI are missing alt attributes, however the accessible command line interface can be used for an accessible user experience.
1.2.1 Audio-only and Video-only (Prerecorded) (Level A)	N/A	There are no audio files or video only in the application
1.2.2 Captions (Prerecorded) (Level A)	N/A	There are no videos in the application
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)	N/A	There are no videos in the application
1.3.1 Info and Relationships (Level A)	Partially Supports	Not all user interface elements are accessible to screen readers, however the accessible command line interface can be used for an accessible user experience.
1.3.2 Meaningful Sequence (Level A)	Supports	A meaningful sequence is provided.
1.3.3 Sensory Characteristics (Level A)	Supports	Sensory characteristics are not used in instructions.
1.4.1 Use of Color (Level A)	Supports	The use of color is not used to convey information
1.4.2 Audio Control (Level A)	N/A	There is no audio
2.1.1 Keyboard (Level A)	Partially Supports	There are places in the application where keyboard accessibility is not provided. e.g., Asset Navigator However, the accessible command line interface can be used for an accessible user experience.
2.1.2 No Keyboard Trap (Level A)	Supports	No keyboard traps were found during testing.
2.1.4 Character Key Shortcuts (Level A 2.1 only)	Supports	Timeouts are not used.
2.2.1 Timing Adjustable (Level A)	Supports	Timeouts are not used.
2.2.2 Pause, Stop, Hide (Level A)	Supports	There is no moving content.
2.3.1 Three Flashes or Below Threshold (Level A)	Supports	There is no blinking or flashing objects.
2.4.1 Bypass Blocks (Level A)	Partially Supports	The accessible command line interface can be used for an accessible user experience.
2.4.2 Page Titled (Level A)	Supports	Pages are titled
2.4.3 Focus Order (Level A)	Supports	Focus order is logical.

Criteria	Conformance Level	Remarks and Explanations
2.4.4 Link Purpose (In Context) (Level A)	Supports	Links are identified by link text alone.
2.5.1 Pointer Gestures (Level A 2.1 only)	Supports	Content can be operated without multipoint or path-based gestures
2.5.2 Pointer Cancellation (Level A 2.1 only)	Supports	Pointer cancelation is supported.
2.5.3 Label in Name (Level A 2.1 only)	Partially Supports	Some Controls are missing labels.
2.5.4 Motion Actuation (Level A 2.1 only)	N/A	The application does not use motion for functionality.
3.1.1 Language of Page (Level A)	Partially Supports	The Centrasite business UI does not specify the language in HTML. However, the accessible command line interface can be used for an accessible user experience.
3.2.1 On Focus (Level A)	Supports	No actions are controlled by focus changes
3.2.2 On Input (Level A)	Supports	No actions are controlled on input
3.3.1 Error Identification (Level A)	Partially Supports	The error messages in Centrasite Business UI are not read by the screen reader. However, the accessible command line interface can be used for an accessible user experience.
3.3.2 Labels or Instructions (Level A)	Partially Supports	Form field labels are not programmatically associated with the fields. However, the accessible command line interface can be used for an accessible user experience.
4.1.1 Parsing (Level A)	Partially Supports	Some HTML warnings and errors were found but there is no impact to accessibility. However, the accessible command line interface can be used for an accessible user experience.
4.1.2 Name, Role, Value (Level A)	Partially Supports	Some field labels are not programmatically associated with the fields so screen readers will not automatically announce the field names as they tab through the forms. However, the accessible command line interface can be used for an accessible user experience.

Table 2: Success Criteria, Level AA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	N/A	There is not live video
1.2.5 Audio Description (Prerecorded) (Level AA)	N/A	There are no audio files in the application
1.3.4 Orientation (Level AA 2.1 only)	Supports	The application is built to be responsive.
1.3.5 Identify Input Purpose (Level AA 2.1 only)	Does Not Support	
1.4.3 Contrast (Minimum) (Level AA)	Partially Supports	Centrasite Business UI does not fully meet the color contrast requirements. The menu has a gray background with blue menu links that falls just slightly below the 4.5:1 with a 4.1:1 contrast. However, the accessible command line interface can be used for an accessible user experience.
1.4.4 Resize text (Level AA)	Supports	Zoom functionality is supported.
1.4.5 Images of Text (Level AA)	Supports	No images of text are used.
1.4.10 Reflow (Level AA 2.1 only)	Supports	The application is built to be responsive.
1.4.11 Non-text Contrast (Level AA 2.1 only)	Does Not Support	
1.4.12 Text Spacing (Level AA 2.1 only)	Supports	No loss of content or functionality occurs by setting line spacing.
1.4.13 Content on Hover or Focus (Level AA 2.1 only)	Supports	The content is perceivable and users can dismiss it without disrupting their page experience.
2.4.5 Multiple Ways (Level AA)	Supports	There are multiple ways to access content.
2.4.6 Headings and Labels (Level AA)	Partially Supports	There are many some places in the application where headings are needed. However, the accessible command line interface can be used for an accessible user experience.
2.4.7 Focus Visible (Level AA)	Partially Supports	A visual focus is not provided adequately across the application that does not expose the focus visually. However, the accessible command line interface can be used for an accessible user experience.

Criteria	Conformance Level	Remarks and Explanations
3.1.2 Language of Parts (Level AA)	N/A	Only one language is used.
3.2.3 Consistent Navigation (Level AA)	Supports	Navigation is consistent throughout the application.
3.2.4 Consistent Identification (Level AA)	Supports	Identification is consistent throughout the application.
3.3.3 Error Suggestion (Level AA)	Partially Supports	Some errors are suggested but they are not accessible to screen reader users. However, the accessible command line interface can be used for an accessible user experience.
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	N/A	
4.1.3 Status Messages (Level AA 2.1 only)	Partially Supports	Some messages are not automatically read to screen reader users.

Revised Section 508 Report

Notes:

Chapter 3: Functional Performance Criteria (FPC)

Notes:

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially Supports	The command line interface is the accessible user interface for people who are blind.
302.2 With Limited Vision	Partially Supports	The command line interface is the accessible user interface for people who have limited vision.
302.3 Without Perception of Color	Supports	Centrasite is accessible for people without the perception of color.
302.4 Without Hearing	Supports	Centrasite is accessible for people without hearing.
302.5 With Limited Hearing	Supports	Centrasite is accessible for people with

Criteria	Conformance Level	Remarks and Explanations
		limited hearing.
302.6 Without Speech	Supports	Centrasite is accessible for people without speech.
302.7 With Limited Manipulation	Partially Supports	Centrasite is accessible for people with limited manipulation. There are a few places that are not keyboard accessible. However, the accessible command line interface can be used for an accessible user experience.
302.8 With Limited Reach and Strength	Supports	Centrasite is accessible for people with limited reach and strength.
302.9 With Limited Language, Cognitive, and Learning Abilities	Supports	Centrasite is accessible for people With Limited Language, Cognitive, and Learning Abilities

Chapter 6: Support Documentation and Services

Notes:

Criteria	Conformance Level	Remarks and Explanations
601.1 Scope	Heading cell – no response required	Heading cell – no response required
602 Support Documentation	Heading cell – no response required	Heading cell – no response required
602.2 Accessibility and Compatibility Features	Supports	Accessibility and Compatibility Features can be provided upon request
602.3 Electronic Support Documentation	See WCAG 2.0 section	See information in WCAG 2.0 section
602.4 Alternate Formats for Non-Electronic Support Documentation	Supports	Accessible digital formats can be provided upon request.
603 Support Services	Heading cell – no response required	Heading cell – no response required
603.2 Information on Accessibility and Compatibility Features	Supports	Support services have Information on Accessibility and Compatibility Features of products.
603.3 Accommodation of Communication Needs	Supports	Email is available for support.
